DID YOU KNOW?*

There are roughly 700 strands of bacteria living in the average vehicle.

32 percent of drivers only clean the inside of their vehicles once a year.

The average steering wheel is four times dirtier than a public toilet seat.

MADE TO KILL 99.9%
OF BACTERIA, MOLD
AND VIRUSES

CLEAN CARE ANTIMICROBIAL PRODUCT

Our Clean Care antimicrobial is eco-friendly and VOC-free.

To clean, sanitize and disinfect your vehicle, just follow these easy steps:

1. Bring your vehicle into the dealership for treatment - any make or model!
2. Relax in your dealership's lounge while our technicians go to work. We vacuum your vehicle then spray our antimicrobial product in your vehicle's interior.
3. Enjoy your newly sanitized, germ-free vehicle!
